

```
feature_processor.process  
_embeddings_and_attention
```

```
graph LR; A[feature_processor.process_embeddings_and_attention] --> B[feature_processor.apply_random_projection_globally]
```

A flow diagram consisting of two rectangular boxes connected by a blue arrow pointing from left to right. The first box is white with a black border and contains the text 'feature_processor.process_embeddings_and_attention'. The second box is gray with a black border and contains the text 'feature_processor.apply_random_projection_globally'.

```
feature_processor.apply  
_random_projection_globally
```
